Cincinnati Canstruction® combines the fun of a design/build competition with an ingenious way to help feed hungry people. Local prominent architectural, engineering, planning, design and construction firms, and students mentored by these professionals, create phenomenal structures built entirely out of canned food. Judging occurs in categories such as Best Use of Labels, Structural Ingenuity, Best Meal, and Jurors' Favorite. Awards are presented at an annual fundraising gala. At the close of the exhibition all of the canned food used in these structures is donated to the Freestore Foodbank, for distribution to shelters, soup kitchens and other emergency feeding programs. Make a donation online and help Cincinnati Canstruction® put an end to hunger.

Competition sponsored by the Cincinnati Chapters of the SDA - Society for Design Administration and AIA - American Institute of Architects
